**DETAILED ACTION**

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-2, drawn to a receiving apparatus using Maximum-Likelihood Determination with two metric calculation units, this correspond to the first embodiment figure 2.

Group II, claim(s) 3-4, drawn to receiving apparatus using Maximum-Likelihood Determination with a selecting unit, this correspond to the second embodiment figure 4.

Group III, claim(s) 5-7, drawn to receiving apparatus using Maximum-Likelihood Determination with a radius setting unit and two selecting units; this correspond to the third and fourth embodiments figures 5 and 6.

The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: (a) the inventions as claimed are either not capable of use together, (b) the inventions have a materially different design, mode of operation, function, and effect; (c) the inventions do not overlap in scope, i.e., are mutually exclusive; and (d) the inventions as claimed are not obvious variants.

A telephone call was made to Joseph Scafetta, Jr. on 3/30/2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JUAN A. TORRES whose telephone number is (571)272-3119. The examiner can normally be reached on 8-6 M-F.
